

ION-001 Recommended Stand Height

For correct positioning of the ION-001, first measure the height from the installation surface — table or audio rack — to the top of the platter (a).

If this height is **14 cm / 5.51 in or less**, the ION-001 can be used without a stand. For taller turntables, or to achieve a more optimal position, refer to the recommended stand heights on the right.

(a) Height from the installation surface to the top of the platter surface. Select the stand height that corresponds to this measurement.

POSITIONING PRINCIPLE

The stand heights listed are **recommended values only**. Regardless of the turntable you are using, it is generally best to position the ionizer's outlet vents as close as possible to the platter.

Metric · cm

PLATTER HEIGHT (A)	STAND HEIGHT
0 – 14 cm	No stand required
15 cm	1 cm
17.5 cm	3.5 cm
20 cm	6 cm
22.5 cm	8.5 cm
25 cm	11 cm
27.5 cm	13.5 cm
30 cm	16 cm
32.5 cm	18.5 cm
35 cm	21 cm
37.5 cm	23.5 cm
40 cm	26 cm

Imperial · inch

PLATTER HEIGHT (A)	STAND HEIGHT
0 – 5.51 in	No stand required
5.91 in	0.39 in
6.89 in	1.38 in
7.87 in	2.36 in
8.86 in	3.35 in
9.84 in	4.33 in
10.83 in	5.31 in
11.81 in	6.30 in
12.80 in	7.28 in
13.78 in	8.27 in
14.76 in	9.25 in
15.75 in	10.24 in
